Discover an exceptional walking comfort from toe to heel.

To guarantee you 100% comfort, nothing was left to chance.

Stuppy shoes are made of high quality soft leather. Thanks to the breathable leather lining, the padded upper edges and the soft tongues, you will be able to put on and adjust these shoes easily.

The high quality leather upper is especially soft, while the various adjustment options allow for a millimeter-precise fit to your foot shape. In addition, the wide fitting ensures a perfect adaptation to the foot.

The REFLEXOR ACTIVE INSOLE massages your foot with every step, relaxes neck and throat and improves the vegetative nervous system, breathing and blood circulation in the head and pelvis.

The REFLEXOR AKTIV INSOLE adapts perfectly to your foot, thus preventing signs of fatigue. It offers you the perfect comfort for highest demands!

Feel well in hand-sewn Stuppy-Reflexor® active shoes.

Your feet do hard work day after day. You should support them with every step as much as possible. With the Reflexor active shoes from Stuppy, you treat your feet to a relaxing massage effect. The comfortable, breathable footbed and the flexible, shock-absorbing outsole have a pleasant effect - relaxing in case of stress and invigorating when tired.

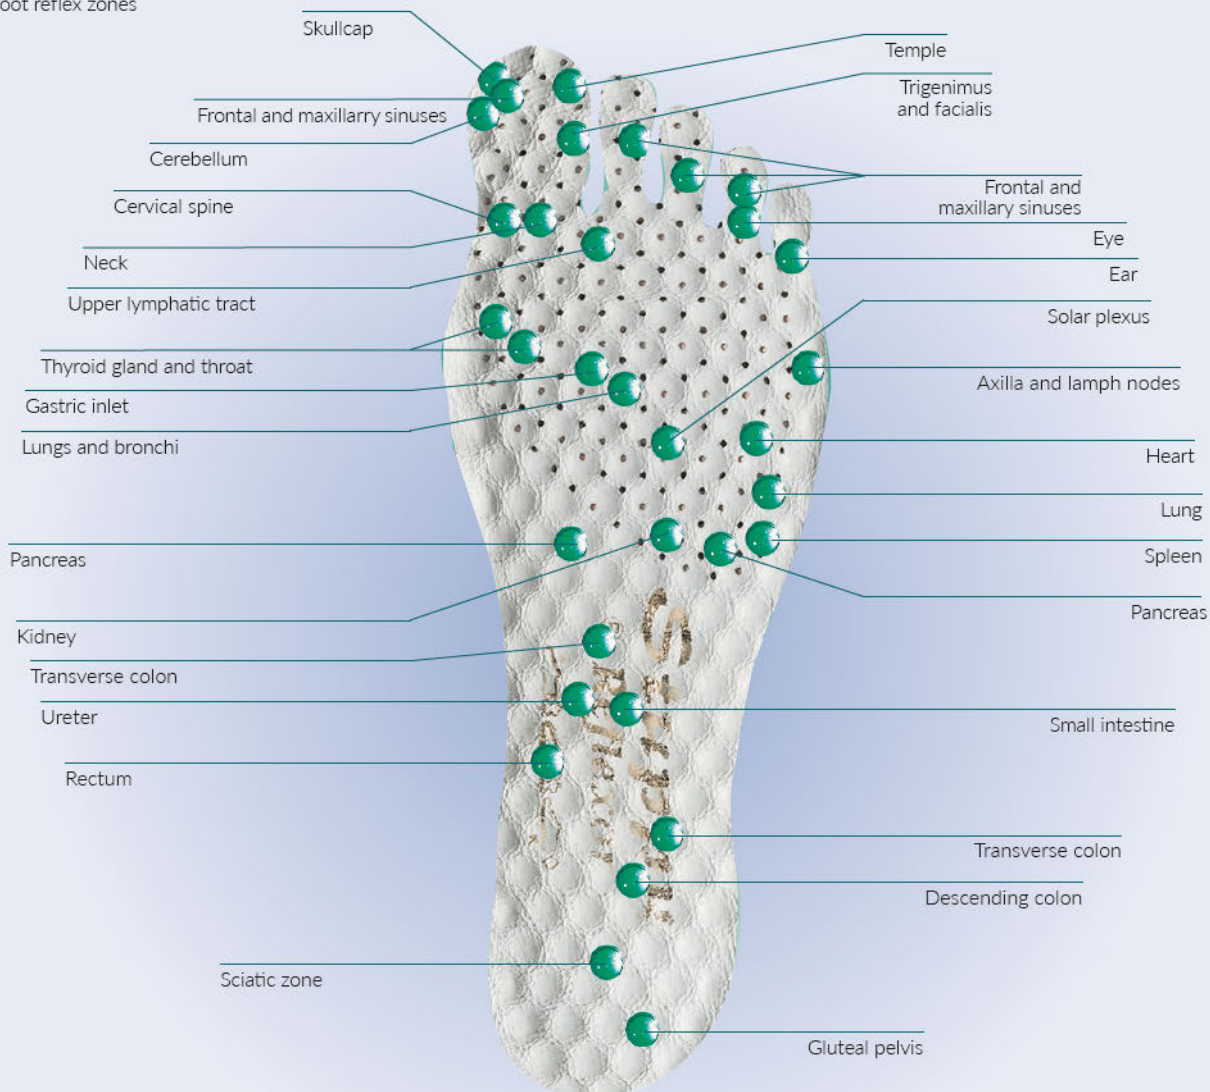

The soft leather cover sole and the moss rubber nubs create a soothing massage effect "step by step" while stimulating your organism and increasing your well-being noticeably.

- Soft leather cover sole with moss rubber nubs
- Promotes blood circulation through massage effect:
Stimulates the reflex zones of the feet, stimulates the organism and increases well-being
- Anatomical, breathable footbed

Reflexor® active shoes stimulate your organism

The foot reflex zones

The REFLEXOR ACTIVE INSOLE ensures health, safety and exceptional comfort.

It helps to increase the comfort of the shoe in a simple and natural way. The anatomically shaped footbed helps to distribute the load and thus prevents premature fatigue. It improves the posture of the body. It contributes to pain relief. It can be replaced with custom insoles if necessary.

The special equipment features of our Stuppy Active shoes can be found as pictograms directly next to the models:
